

Answer the **first 3** questions from Set B or Set C

Use the number line guide to help you and click on the image of the guide on the home learning sheet to watch a [video guide](#).

Calculation at Chesswood

Division

2

Number Line in chunks

What jumps of **8** can you make on the number line towards 56?
 $5 \times 8 = 40$ would be good!

Now a jump of $2 \times 8 = 16$ would take you to 56.

Add **5** and **2** = 7.

$$56 \div 8 = 7$$

Set B

Work out these divisions:

3 $38 \div 2$

4 $42 \div 3$

5 $85 \div 5$

6 $64 \div 4$

7 $45 \div 3$

8 $54 \div 3$

9 $76 \div 4$

Set C

Work out these divisions:

3 $54 \div 3$

4 $75 \div 5$

5 $68 \div 4$

6 $95 \div 5$

7 $69 \div 3$

8 $81 \div 3$

9 $92 \div 4$
