

Rumblestar: Chapter 14

Activity: Look at this description of Shiverbark Forest. It's always winter and snowy there.

Draw a picture or write a description of the kinds of people or animals who might live in Shiverbark Forest. Create your own characters - have fun with it. Link to science - how might they have evolved to live in this habitat?

Utterly gathered her breath. 'This must be Shiverbark Forest, where snow is conjured. It's winter all year round here.' She peered into the trees. They were dusted with white flakes but nothing like as much snow as she had seen in the pictures in her schoolbooks. 'Back at the castle, we were taught that it never stops snowing here, that every single day snowflakes

the size of dinner plates fall and snow piles up as high as houses.' Her voice turned dark. 'Either the magic has already dried up in these parts or the Midnights have been stealing marvels from here, too.'
