	Mindfulness activity: Where is your favourite soothing place? This could be		
	somewhere in nature; it could be floating on your back in the sea as the waves lick		
	your ears; a beach or pool you visited once on a holiday; or somewhere else that		
	made you feel safe and relaxed. You can visit this place anytime in your mind by		10
	closing your eyes and going through each of your senses to feel as though you are		
	there. For example: I can see the bright sun. It is so bright that it is making the		
	colour of the sky and pebbles on the beach very vivid. I can hear the sound of		
	small pebbles being dragged backwards and pushed forwards by the tide and		
	there is a muffled sound of people laughing and chatting. My fingers are pushing		
	through the small pebbles on the beach until they touch sand underneath and the		
	sun feels warm on my body.		
	RE lessons ask you to think about meanings and ideas. Not simply what they mean	Eternal love lesson 3 PDF	20
	but what do they mean to you or other people/communities/religions. Because of		
	this we really recommend that you do this lesson with family, or a friend or a		
	group of friends. With parent permission, you could set up a group call or video		
	call to complete this task - a nice way to get a task completed and stay in contact		
	with your classmates.		
RE	Use the PDF and if you can't print you can write out your answers in an exercise		
NE	book.		
	Start with a discussion to recap what we learned in our last lesson – eternal love.	https://www.youtube.com/watch?v=zNuBLJ1Aw0o	
	In this lesson you are going to explore the broader meaning of the term "love" in		
	Christianity, using bible quotes and parables. There isn't really a wrong answer		
	and the boxes and questions are looking for your thoughts and reflections on the		
	different messages shared in this lesson. Consider what each idea or story means		
	to you, what you can take from it and how you might have felt that way yourself.	hates //selections and /	10

Art	WALT: represent our viewpoints through Art Activity 1:		30

Express your opinion about which images are commenting on social media influence and which are commenting on climate change. What is your take on these images, what do they make you think of?

Watch video before activity 2.

Activity 2:

Create a concept map about one of the two topics: <u>social media</u> OR <u>climate</u> <u>change</u> demonstrating all of your viewpoints on either topic.

Use the internet for additional research if you need to.
You may hand draw and colour this, or you may choose to use technology to create your mind map. Please send a photo of your work to your teacher!
