**Calming Activities:** Try one of the calming activities or tools in this PDF to help you feel better when you're feeling anxious, scared or sad. Even if you're feeling fine, you might find a nice activity to do so you're ready for when you do feel wobbly.

**Body Scan Meditation – An activity to do on your own or with others, get your parents to try it with you, I bet they need some time to scan their bodies too...**

You can think of a body scan as a mental X-ray that slowly travels across your body. It is a meditative practice that involves mindfully scanning your body for sensations

of pain, tension, or anything out of the ordinary. Proven to improve wellness in body and mind.

Ensure that you are sat/laying down comfortably. Close your eyes if you are comfortable doing so. Take this time to yourself, you deserve it. You can do it at any time in the day, you may choose to do it when you have a break from learning, if you are feeling frustrated, angry or restless. You may like to try it before you sleep at night. There is no wrong or right way, just do what you feel is comfortable.

If you don't enjoy it at first, just keep going... you may enjoy it more after a few tries. There are lots of videos to try, from just 3 minutes to almost 9 minutes long. Why not give them all a try throughout the week? Miss Hills would love to hear which one is your favourite and why as she does this often with her class! She even uses false candles in her dark classroom... you could do this too!

## Here's how to give it a try: (Alternatively, watch the guided videos)

1. **Get cozy.** Start by getting comfortable. Lie down or sit in a position that allows you to stretch your limbs easily.
2. **Focus.** Close your eyes and begin focusing on your breath. Notice the sensation of your breath filling and leaving your lungs as you inhale and exhale.
3. **Choose where to start.** Begin anywhere you like — left hand, left foot, right hand, right foot, the top of your head. Focus on that spot as you continue breathing slowly and deeply.
4. **Pay attention.** Open your awareness to sensations of pain, tension, discomfort, or anything out of the ordinary.
5. **Go slow.** Spend anywhere from 20 seconds to 1 minute observing these sensations.
6. **Acknowledge.** If you begin to notice pain and discomfort, acknowledge and sit with any emotions these sensations bring up. Accept them without criticism. For example, if you feel frustrated and angry, don't judge yourself for these emotions. Notice them and let them pass.
7. **Breathe.** Continue breathing, imagining the pain and tension decreasing with each breath.
8. **Release.** Slowly release your mental awareness on that specific part of your body and redirect it to your next area of focus. Some people find it helpful to imagine releasing one body part as they breathe out and moving on to the next as they breathe in.

	<p>9. <b>Move along.</b> Continue the exercise along your body in a way that makes sense to you, whether you move from top to bottom or up one side and down the other.</p> <p>10. <b>Note drifting thoughts.</b> As you continue to scan across your body, note when your thoughts begin to drift. This will happen probably more than once, so don't worry. You haven't failed, and you can easily get your thoughts back on track. Just gently return your awareness to where you left off scanning.</p> <p>11. <b>Visualize and breathe.</b> Once you finish scanning parts of your body, let your awareness travel across your body. Visualize this as liquid filling a mold. Continue inhaling and exhaling slowly as you sit with this awareness of your whole body for several seconds.</p> <p>12. <b>Come back.</b> Slowly release your focus and bring your attention back to your surroundings.</p> <p>After a few tries, you may be able to do it on your own, with just your mind. It is a very powerful tool to use for children and adults!</p>	<p>6 minutes 15 seconds:  <a href="https://www.youtube.com/watch?v=aIC-lo441v4">https://www.youtube.com/watch?v=aIC-lo441v4</a></p>  <p>8 minutes 38 seconds:  <a href="https://www.youtube.com/watch?v=QS2yDmWk0vs">https://www.youtube.com/watch?v=QS2yDmWk0vs</a></p> 		
RE	<p><b>Assessed task to complete once you have finished the lesson. Due Tuesday 9<sup>th</sup> February 2.30pm.</b></p> <p>RE lessons ask you to think about meanings and ideas. Not simply what they mean but what do they mean to you or other people/communities/religions. Because of this we really recommend that you do this lesson with family, or a friend or a group of friends. With parent permission, you could set up a group call or video call to complete this task - a nice way to get a task completed and stay in contact with your classmates.</p> <p>Use the lesson PDF and if you can't print you can write out your answers in an exercise book.</p> <p>Start with a discussion to recap what we learned in our last lesson – think back to what you learnt about the meaning of Agape and consider what that means to you. In this lesson you have three tasks:</p> <ol style="list-style-type: none"> <li>1) Learn about the <a href="#">ten commandments</a> and two of the most important commandments.</li> <li>2) Complete the assessment sheet that will help you to recap what you have learnt through this topic. It will help you prepare for the assessment.</li> <li>3) <b>Complete the Forms assessment.</b></li> </ol>	<p><b>Eternal love lesson 5 PDF</b></p> <p><a href="https://www.bbc.co.uk/bitesize/clips/z687tfr">https://www.bbc.co.uk/bitesize/clips/z687tfr</a></p> <p><b>Forms assessment: Eternal Love</b></p>  <p><b>RE: Eternal Love Assessment</b></p>	20

<p><b>Art</b></p>	<p><b>WALT represent our viewpoints through art</b></p> <p><b>Please note: This is your assessment piece due Thursday 11<sup>th</sup> February. Please sent a photo of your final piece along with a small paragraph explaining your sketch to your teacher by 2.30pm Thursday.</b></p> <p><b>Main task:</b>          You need to complete your street art sketch, ensuring that your design:          - Pops with colour.          - Clearly represents your view on either climate change or social media.          - Is simple enough to have an immediate impact with just a quick glance (e.g., imagine you are a member of the public passing by it in the street).</p> <p><b>Task 2 (when emailing it to your teacher):</b>          Write a short passage (a paragraph is enough) to explain your design, e.g., the eyes represent forest fires and the flooding of tears represents both flooding from melting ice caps and the sadness I feel towards climate change.          This could just be typed in the email to your teacher when you attach the photo of your sketch.  <b>Please email this final piece to your teacher by 2.30pm Thursday 11th February.</b></p>	<p><b>08.02.21 – Week 6 Art – Assessed Piece PDF</b></p> 	<p>30</p>
