

Ensure you have all of your equipment

Make sure you collect your blade and are being SAFE with it.

Ensure your card is at the ready.

Decide which parts you want to be a solid colour and which you want to be cut out.

Make sure you remove the little pieces. You can provide a little pressure.

Be gentle! Your scapel may slip. You can stick paper over any cuts or slips.

Cut the paper using pressure as opposed to simply cutting.

Roll off the design carefully so it doesn't rip.

Top Tip: stop to take a look at your work every 15 minutes. If something goes wrong talk to your teacher! If you try and fix it it may make it worse.
