# Chesswood Y3 Geography — We are Air Quality Officers

## **Key Knowledge**

### **What I Should Already Know**

- Countries of the UK (Key Stage 1)
- 4 points of the compass (ks2)
- Types of Settlements (Ks2)

the South East.

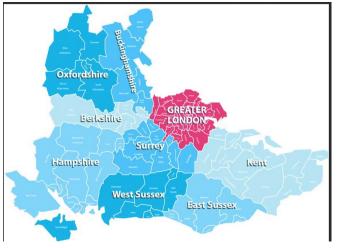

## What is an Air Quality Officer?

Someone who carries out air quality surveys, looks out for possible risks and seeks strategies for overcoming these, striving for high quality of air in our cities and towns.

The 9 regions of England. Worthing is located in Regions are divided further into counties. The counties of the South East of England are

West Sussex, East Sussex, Kent, Surrey, Hampshire, Surrey, Berkshire, Oxfordshire, Buckinghamshire and Greater London (9)

Worthing is in West Sussex. Counties around West Sussex—east is East Sussex, west is Hampshire, north is Surrey and to the south is the English Channel.

## **Key Vocabulary**

	Word	Definition
	Site	The piece of land a settlement is build on.
	National	Relating to a country
	Regional	Relating to a region (part) of a country
	Local	Relating to a particular area or your own neighbourhood
	Regions	Large areas of the country
	County	Smaller areas of the country with it's own government offices
	Capital City	Is where the local government of a country is. The leaders work in the capital city.
	Pollution	Pollution is anything that makes the earth dirty and unhealthy. Land, air, and water are all affected by pollution
	Air Quality	a measure of how clean or dirty the air in a particular area is.
	Air pollution	Is when unwanted chemicals, gases and particles enter the air causing harm to animals and damaging the natural cycles of the Earth
	Traffic	Vehicles (cars, buses, motor bikes etc moving along a road)
	environment	The natural world, with the plants and animals living in it.

## **Sustainability**

Towns and cities will have problems with pollution because there are lots of people living in a small area.

Traffic is the main producer of air pollution in cities.

Solutions to air pollution in cities include: green public transport, charging stations for electric cars, bicycle lanes, congestion charges and low emission zones.

		Earth
1	Traffic	Vehicles (cars, buses, motor bikes etc moving along a road)
	environment	The natural world, with the plants and animals living in it.
	sustainability	Sustainability is the practice of using natural resources responsibly, so they can support both present and future generations
	urban	Relating to a city or town (housing, factories, offices, roads and footpaths)
	Green urban	An area in a town or city which covered with grass or other trees (park or woodland.)

# Y3 Geography — We are Air Quality Officers

# Key Skills Fieldwork

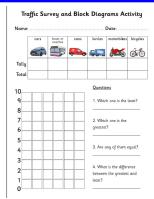

### **Fieldwork Skills**

Pupils to consider the problem of air pollution on Chesswood Road by counting

the amount of traffic over a 10 minute period using a tally chart and creating a block graph or bar chart to present the data.

On the OS map showing Brighton Road (Splashpoint) and Chesswood Road, we can see that Brighton Road is a main road and Chesswood Road is a minor road. This means that Brighton Road is busier with more traffic than Chesswood Road.

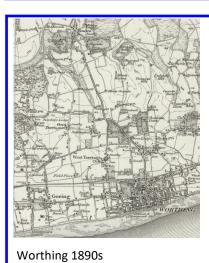

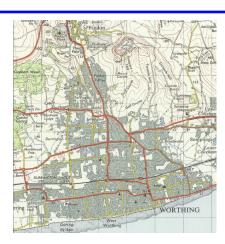

#### **Pollution Problems**

• Location: From front playground/footpath

# **Map Skills**

Worthing 2000s

Worthing has increased in sized since the 1890s. Then most of the town was south of the railway line and was only starting to reach West Worthing. By the 1950s, the town had grown to the north and by the 2000s, Durrington is also providing housing for a larger population.

Worthing 1950s

#### **Car Pollution Investigation**

Pupils to collect data (how many pedestrians, cyclists, vans, cars, lorries, buses and motorbikes) for 10mins .
