

# Chesswood Junior School Operation Encompass Protocol

## 1. Introduction

The safeguarding team-work in partnership with police through the Operation Encompass process. The protocol below provides our broad procedures, however as all incidents, reports and family circumstances are different we use this to guide professional judgement and decision making, rather than follow rigidly. We do this in the interests of supporting individual children as a priority and determining above all else what is most likely to be in a child's best interests.

## 2. Protocol
