Science	<p>We are continuing looking at the animal kingdom but this week we are exploring how we separate animals in to the five kingdom groups. These tasks have some great opportunities for discussion so why not try to complete with a friend on loudspeaker or (with permission from parents) use a video chat to work together online. You have four sections of the sheet to complete and a <a href="#">video</a> on ecosystems to help explain the kingdoms clearly.</p>								Spring 2 Lesson 2 Worksheet pdf	20

	<p><b>A great activity for you to try if you are not working is free drawing:</b>            As you listen to the sounds draw. Do not draw a picture or focus on creating something specific – just draw. Try wavy lines, zig zag lines, thick lines, thin lines, swirl across the page or repeat circular motions. As you draw listen to the sound of the pencil on paper. Think about how each movement feels – which do you prefer?</p>								<a href="https://www.youtube.com/watch?v=QQCnWwvrO8U">https://www.youtube.com/watch?v=QQCnWwvrO8U</a>	10

<p>Mindfulness activity: After you wake up in the morning or before you go to bed at night, write five to 10 things that you are grateful for. Get specific. So instead of just</p>											

	writing down 'I am grateful for family,' try: 'I am grateful for the zoom call I had with my parents and sister last night.'"		10	
<b>Geography</b>	For this half term you will be exploring settlements. You now know what types of environments and factors make a successful settlement and now we are going to add to that. In this lesson you will explore how we classify different types of settlements. For example, why is Portsmouth a city but Worthing is not? What services do settlements of different sizes have? School, doctor, hospital? Complete the worksheet using the lesson pdf and the link to <a href="#">Settlement Hierarchy</a>	<b>Lesson two pdf</b> <b>Lesson two worksheet pdf</b>	20

	Put your engineer hat on and get ready to construct a masterpiece! This grid has 6 different activity ideas for you to choose from. They take a lot of patience and some planning/resourcing, so take your time and have fun when making! <b>Plan-Make-Evaluate</b> Go the extra mile by evaluating your final product, would you do anything differently next time to make the process easier or to make the final piece more functional? Is it aesthetically pleasing to look at? If not, could it be? Could you write a how-to-guide so someone else could make one too? Good luck! <i>Please send photos to us!</i>	<b>18.01.21 – We are Engineers Lockdown Learning Tasks PDF</b> 	30	
<b>DT</b>	Now that you have made a delicious stir-fry in year 6, why not try another cooking task of your choice? There are 5 recipes to choose from or you could find your own online/using a recipe book from home.  If you find your own recipe, perhaps you could write the ingredients list and method and send it to your teacher so that others could try it at home too.  <i>Be sure to use your cookery skills to stay safe and send photos to your teacher of you making it and of the finishing product if you can.</i>  <b>Watch a clip from the BBC series:</b> The Secret Life of Our Favourite Dishes – ‘From the true colour of carrots to how to spot the difference between kinds of cows, why onions make us cry to the magic behind growing straight cucumbers, Stefan Gates reveals where our food comes from and how it is made.’	<b>DT Cooking Tasks PDF</b> 	30
