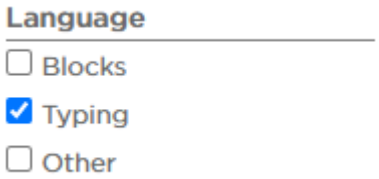
Year 5 Computer Home Learning Tasks

For our home learning this term, we will be using the Hour of Code website. Before you begin, please watch this short introduction (it's actually for teachers, but you'll get the idea!). https://youtu.be/SrnvvWDm73k

Weblink: https://hourofcode.com/uk/learn

Now you've hopefully got to grips with using blocks to code, we're moving things on a little bit. Don't panic! As before, the instructions are easy to follow.



The only thing that you need to do differently is scroll down and select **Typing** on the Activities screen on the Hour of Code.
