

Week 1 Day 4

Remember: Pencil, short date, underlined.

Teacher models 43 X 8

A diagram illustrating the addition of two equal parts to form a whole. A large rectangle is divided into two equal halves by a vertical line. Above the left half, there is a red line segment. Above the right half, there is another red line segment. Below the rectangle, there is a red plus sign and a red equals sign.

### EXTRA CHALLENGE

 $38 \times 5$ 

46 X 3

 $62 \times 4$  $87 \times 8$  $122 \times 4$  $124 \times 8$  $84 \times 3$ 

## Mega Challenge:

$$43 \times 8$$
 $33 \times 8$ 
$$37 \times 4$$

### Calculation at Chesswood

### Multiplication 3

## Grid - Short

56 x 7... partition 56 to 50 + 6

$$50 \times 7 = 350$$

$$6 \times 7 = 42$$

50

6

|   |     |    |       |
|---|-----|----|-------|
| 7 | 350 | 42 | = 392 |
|---|-----|----|-------|

|     |    |
|-----|----|
| 350 | 42 |
|-----|----|

Now add 350 and 42

$$56 \times 7 = 392$$

This is where I partition the larger number...  
I put the numbers in my grid.
