

Ordering 3-Digit Numbers on a Number Line

This is a 2 player game.

You will need:

- 2 different colouring pencils
- 2 sets of number cards (included)
- 1 number line (included)

Instructions

1. Take turns to pick three cards from your pile of face-down number cards.
2. Use these three numbers to make a three-digit number. e.g if 3, 5 and 4 are picked, you could make '345', '354', '435', '453' '534' or '543'.
3. Write your chosen number in the correct place on the number line.
4. The aim of the game is to get three numbers in order on the number line without your partner squeezing a number in between them!
