Example:

70 x 5 = 350

5

10 10 10 10 10
10 10 10 10 10
10 10 10 10 10

10 10 10 10 10   70

10 10 10 10 10
10 10 10 10 10
10 10 10 10 10
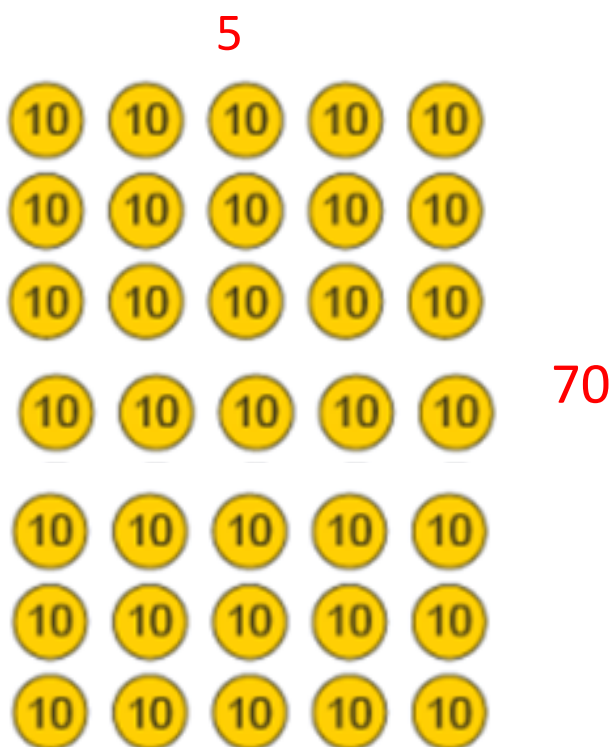

I could use 7 x 5 and make it 10 times bigger. There are 5 groups of 70 in 350.
