My Favourite moments of the year are...	Going to The Big Bang Fair because I got to see a McLaren (A really fast car and one of my favourite cars) and I stroked a Goat (something I've never done before). The Planetarium was also really fun as well because we saw the real space and saw new planets and learnt new facts.			
Learning and work I am proud of this year is...	My Persuasive Text because I spent a long time on it. I'm also proud of the vocabulary I used. The drawings that I did were alright.			
The things I want to improve on next year are...	My Vocabulary because sometimes I repeat words when I don't have enough words and it sometimes gets a bit boring. I would also like to improve on my presentation because sometimes I rush my work and it doesn't look that neat.			
Relationships & Working with others	I am good at working with others because I am a good team leader and sometimes I get a bit bossy, only when people are misbehaving or being silly or using the equipment in wrong way.

My Favourite moments of the year are...	My favourite part of the Year was when I learnt the bus stop method. I had always used chunking so it was nice to learn something new. Another great moment was the Toy Story play. I loved meeting new friends and having fun!			
Learning and work I am proud of this year is...	I am proud of my swimming level increase. I am so happy to be independent. I am also proud of my flower work. My diagram is neat and I learnt lots of facts about flowers.			
The things I want to improve on next year are...	I want to improve on my maths because I feel like I can improve on my methods and three-second recall. I also think I can improve on my english because I always forget things that makes my writing better.			
Relationships & Working with others	I want to improve on my kindness to others and let people show me skills I may know. I want to be nice to friends or anyone who needs company.

My Favourite moments of the year are ...	In year five, I've had great moments but the one that highlights my year was when we had sports day because everyone got to do sports, sprint and long distance running.			
Learning and work I am proud of this year is ...	The work I've been most proud of is my job application because we applied for a job to be many roles as a leader. I applied the role as a CAST member, to show our ACRO skills.			
The things I want to improve on next year are ...	Next year I want to improve my maths method because I need to push myself to use the compact method for dividing two digit numbers.			
Relationships & Working with others	When I went to my new classroom to see my new friends made me want to work with other people even more. At first I was scared, but in my class it made me more confident to work as a team.

My Favourite moments of the year are...	My favourite moments were when we got the animals and butterflies. The guinea pigs were probably my favourite. A group of us clean them out. Another one of my favourite moments is when we did mountain topics and we all learned all new facts.			
Learning and work I am proud of this year is...	I think my best piece of work this year was when we did our mountain topic and I did a poster with some other people, because I did an amazing drawing of a mountain.			
The things I want to improve on next year are...	I want to improve on my reading and try to read lots of pages a day. I need to improve on my spelling because I normally get small thing wrong and I need to practise that.			
Relationships & Working with others	Although I have got a new class I have not made many new friends and I just stuck with my old friends. I am good at working with others and anyone. I don't mind who I work with.

My Favourite moments of the year are...	In year 5 I really enjoyed it when I did the cross country because I improved on my running. I also enjoyed sports day because we did lots of races. I enjoyed it when we went in to the planetarium and it looked like we were in space.		
Learning and work I am proud of this year is...	I am proud of my application letter for a sports leader because I got in to it. I am proud of my maths work because I have really improved on my times table recall because I haven't been very confident.		
The things I want to improve on next year are...	I really want to improve on my running because I want to be the fastest girl in year 6. I also really really want to improve on my maths times table and my division method. I also want to improve on my friendship.		
Relationships & Working with others	I want to have more friends next year because I have been bailed for a couple of years now and I haven't known many people and I would like to be more popular in the school.
