

My heritage is Tamil . The antiquity of Tamil cannot be spoken about without a sense of wonder. Tamil language is one of the oldest language of at least 2,500 years and this ancient language preserves a rich heritage

Animals have great importance in our culture. Not only cows but dogs, eagle, elephants, peacocks and even snakes are worshipped as God

தமிழ்

I have learnt from my culture that happiness is not measured by amount of money you have but is measured by the wonderful people you have around you.

My ancestors are from Tirumangalam a small village near Madurai the city of temples

People in Tirumangalam live a simple life and are yet very happy. They live in big families with many livestock
