6×12

How to Play

1. Roll the dice and move the correct number of spaces.
2. Solve the calculation on the square you land on or follow the instructions. Find the correct answer on one of the circles.
3. Cover the answer to the calculation with a counter.
4. Use a calculator to check the answer that has been covered is correct. If it is incorrect remove the counter.
5. If the answer is already covered or you do not know the answer, miss a turn.
6. Each player is to take turns following steps 1-5. The winner is the player who covers the most answers.

You Will Need

- 2 or more players
- dice
- counters to move around the board and to cover the answers
- calculator to check answers
