October 2019

Dear Parents,

Year 4 – Torch Project - October

So far this year, we have been learning about electric circuits during our topic, 'Batteries Included'. To put this learning to good use, we will be constructing hand held torches before we break up for half term.

Children will be provided with all the electrical components they will need to make their torch, but we would like children to collect items that could form the casing to house these components: plastic milk bottles with handles are great (1-4pint), or alternatively any (cardboard) structure that can be easily cut. We would also like children to collect any items they would like to personalise their torches and make them unique; *we are creative* after all!

May we ask that children bring any items to their class teacher by **7th October 2019**.

Kind regards,

The Year 4 team
