TO MRS MASKELL

My favourite subject is computing - science, P.E and history because you get to do experiments and sport coding and learning about the past.

I go to football club ^{at} minecrafter club with I really like because you get to do it with your friends. I'd much rather than Roblox club though.

I might need help at concentrating because I sometimes just get really bored of something and then just not concentrate. I also don't like writing.

I go to another football club at the weekend in Southwick, and it's open mainly boys and they're just stay led during matches.

My favourite animal is a fox. I have a cat named Poppy who is ginger, white, grey and black. I like playing video games and my favourite game is Roblox which has like 1,000,000 games on it.

bye!!!
