Constructing an Expanded Noun Phrase

A noun is a thing, person or idea. An expanded noun phrase provides extra information about the noun. You can use a determiner, adjectives and a prepositional phrase within your expanded noun phrase to describe and specify details about the noun.

Determiner	Adjectives	Noun	Prepositional Phrase
A determiner is a word which comes before a noun or any modifiers, such as adjectives. They introduce the noun and give the reader important information about it.	Adjectives are words which describe a noun. You can use two adjectives to describe a noun but they must be separated by a comma, e.g. the huge, hairy spider.	The noun is the thing, person or idea that the expanded noun phrase is about.	A preposition is a word which indicates place or direction. A prepositional phrase usually includes a preposition and a noun or a pronoun.
