

Living in the wider world - Aiming high

PSHE

My Achievements: think about all the things that you achieved last year. Here are some examples: made lots of new friends, learnt a new hobby, started learning a new language.

Future goals: think about a job that you might like to do when you are older. Do you know how to achieve this?

Task: Research your chosen job (career) and write down all the skills that you need to have to be able to achieve this goal. See the example below:

Note: You can research as much about your future goals as you want but here is a quick example of some of the skills you need to be a teacher.
