

**HOUR
OF
CODE**

For our home learning this term, we will be using the Hour of Code website. Before you begin, please watch this short introduction (it's actually for teachers, but you'll get the idea!). <https://youtu.be/SrnvwWdM73k>

Weblink: <https://hourofcode.com/uk/learn>

Watch this video of these famous (and very rich!) people talking about coding and then have a look at the website. Yr 5 is equivalent to 4th Grade in America, but feel free to look at other age ranges, depending on your confidence.
