	<p>to do this 6-minute activity at least 3 times this week and see how your breathing and focus improves each time.</p> <p>Try this relaxing music to help you when you are working, after your meditation session or before you drift off to sleep. As you listen to it try slowing your breathing down. A great way to do this is to lay down and put a cushion or soft toy on your tummy. Inhale (breathe in) deeply for a count of 3 seconds and then exhale (breathe out) for a count of 4 seconds. Watch or feel the object on your tummy rise and fall as you breathe in and out.</p>	https://m.youtube.com/watch?v=o8GrqUSdzi0&t=30302s

Decide if you think they have lasted in your lifetime, will last forever or you want them to last forever.</p> <p>What would you like to put under the headings in the columns? Think of the things in your life that are important. What has lasted so far? What will last forever? What do you wish would last forever?</p> <p>Discuss with a family member - Does anything last forever? Does everything change over time? Think about how are your ideas similar and different? Why might they be similar or different?</p>	<p>Lesson 1: Is anything eternal PDF</p>	20
