RE	Discuss the meaning of eternal. What does it mean to you? What does it mean to other members of your household? Write down your meaning of the word eternal. What it means to you. Then answer the question "Will anything last forever?" Can you think of any examples to support your answer? Eternal means lasting or existing forever without end. Was your definition similar? Look at the list on the page. Make a note of or circle the things that you think can last forever. Maybe they can last forever in a certain way? Order the list into the columns. Decide if you think they have lasted in your lifetime, will last forever or you want them to last forever. What would you like to put under the headings in the columns? Think of the things in your life that are important. What has lasted so far? What will last forever? What do you wish would last forever? Discuss with a family member - Does anything last forever? Does everything change over time? Think about how are your ideas similar and different? Why might they be similar or different?	Lesson 1: Is anything eternal PDF	20
