Write the title for each group.

Answers revealed on
next page

Classifying living things

Tell me how I can classify living things in the group animalia?

Birds
Reptiles
Fish
Amphibians
Mammals

Activity 1:

Write as many characteristics as you can for each group of animals.

Mammals

Fish

Birds

Amphibians

Reptiles

Which characteristics are shared between more than one group of animals?

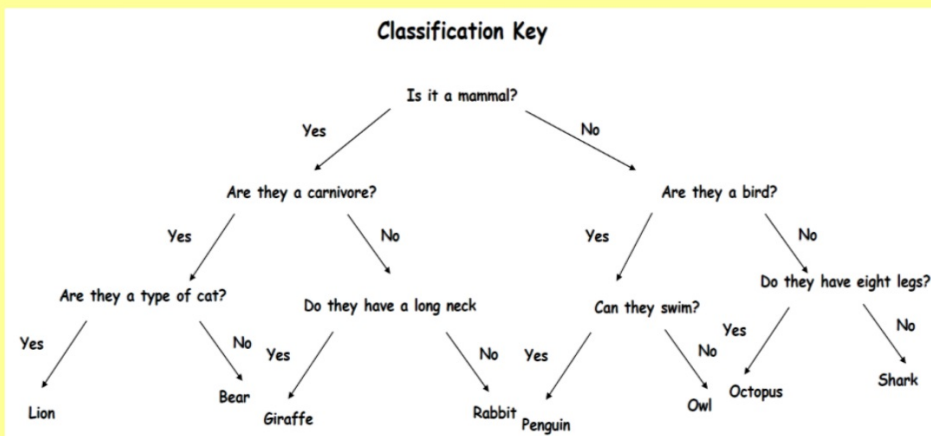

Which characteristics are specific to only one type of animal?

Teacher circle on the board

Activity 2:

Using the example below, add the animals in the group (in the box) to this classification key.

Carnivore
= meat eater

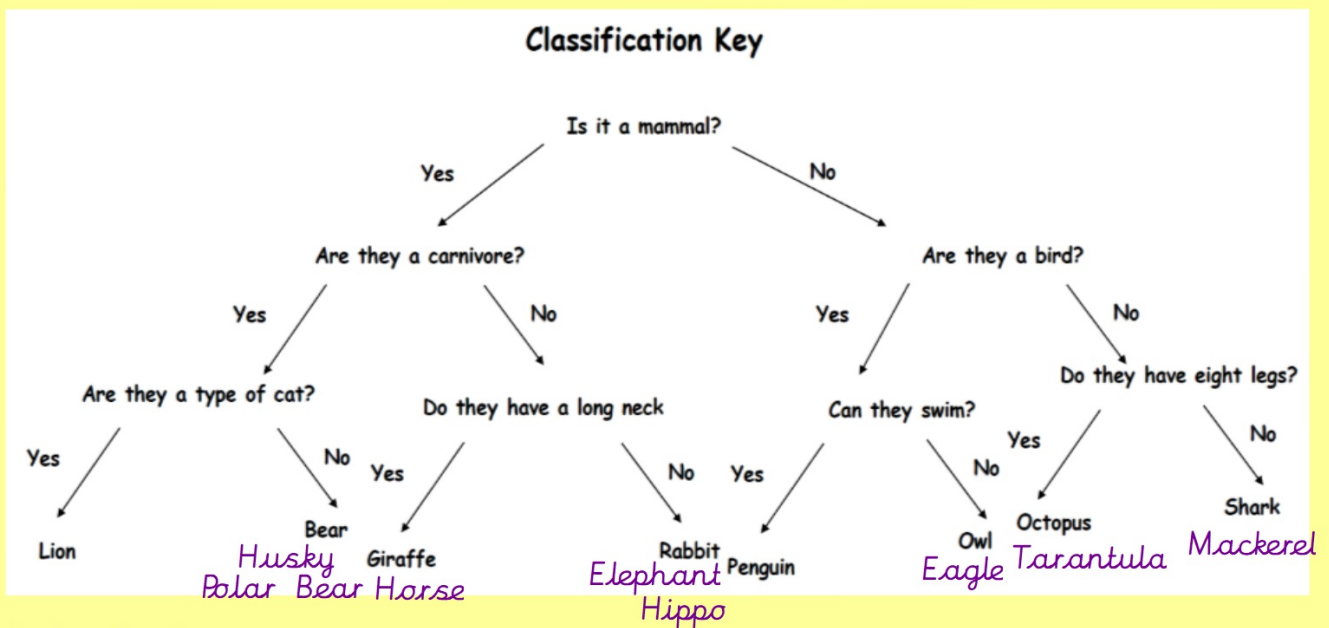

Use the internet to research animals you are unsure of.

Animals to group:

Mackerel
Husky (dog)
Horse
Tarantula
Snow Leopard
Elephant
Polar Bear
Hippo
Eagle

Answers on the next page

Let's have a look and see how you did

Activity 3:

Now draw this classification key and add an extra question/questions so that you are adding more strands to your key. Try to finish with just one animal at the end of each strand!

Plenary

Activity 4: Watch the short video about the duck-billed platypus

Weird and wonderful animals...

The duck-billed platypus
